Review for Final Exam

- Consider the case in which JN's brain is transplanted into MFB's body. Who is the resulting person? How would this question be answered by each of the theories? How would you answer it, and why?
- In defending your own answer, I want you to state & consider the strongest argument you can *against* your position, and then respond to it as well as you can.

Review for Final Exam

- Is death something to fear? Discuss in light of the things we have studied this term. What do you think, and why?
- What is a deterministic system? Is our universe a deterministic system? How would this be answered by people we discussed this term? If it were, would that undermine free will?
